* The maximum power of an AWD vehicle is based on the combined output of the front and rear wheels. * All figures satisfy standards designated by the Ministry of Trade, Industry & Energy.

Maintain a constant speed to drive more efficiently.

• The fuel economy described above is based on the standard model and may differ during actual driving depending on road conditions, driving technique, cargo load, vehicle maintenance, and outdoor temperature. • Some of the images presented here include optional specifications, so their appearance may differ from the car you purchase. • The specifications, colors, and sources presented here may be modified to improve vehicle exterior and performance. • Leather (seats, wrapped parts) is partially mixed with synthetic leather and/or other materials (e.g., fabric). • Vehicle colors presented here may differ from actual appearance. • Driving range may vary depending on the driver's habits, road conditions, outdoor temperature, and air conditioning settings. • A drop in outdoor air temperature (in winter months) may result in a shorter range due to a decrease in battery performance. • Hyundai Motor Company is committed to fair trade practices, with the same price and quality of vehicles nationwide. • For more information about the new technologies and specifications described in this brochure, please refer to a user's manual.

The images presented here are intended to inform customers and display the best models and options. The specifications described above vary by option, package, powertrain, and exterior color. For detailed specifications, please refer to the price list for the relevant month.

Performance

Maximum driving distance for one charging

458km

The use of a large-capacity battery pack (77.4kWh) makes the IONIQ 5 an electric car that can be taken on long-distance drives, in addition to shorter urban trips.

(Long Range 2WD, 19-inch, without built-in cam)

Max. Power / Max. Torque

239kW (325PS) / 605Nm

The IONIQ 5's 239kW output makes it fun and dynamic to drive.
